SUMMARY

A military depot is located approximately 16 kilometers (km) northeast of the center of Kazan (Figure 1). The installation is called the Kazan Ammunition Depot Vysokaya Gora in the Bombing Encyclopedia, but it appears to be only a general storage facility with adjacent administrative areas. The buildings are close to each other and are not revetted. No explosives storage facilities were noted.

The installation is doubly secured and covers approximately 270 acres. It is divided into the following areas: one area with 32 warehouses and a guard hut; 4 housing/

administration areas with 17 barracks, 8 administration buildings, and 24 storage/support buildings, and one possible maintenance area with 9 buildings. There is also an unoccupied 8-gun AAA site in the area.

Between [REDACTED] TALENT and [REDACTED] KEYHOLE missions covered this target. The only major changes noted were the addition of 6 warehouses in the general storage area and the construction of the maintenance area in the summer of [REDACTED]. The depot is very active.
